

Ryan C. Hurley

Associate Professor of Mechanical Engineering
Deputy Director and Faculty Fellow of the Hopkins Extreme Materials Institute
Secondary Appointments, Civil & Systems Engineering and Materials Science and Engineering
Johns Hopkins University, 3400 North Charles Street, Malone 140, Baltimore MD, 21218
rhurley6@jhu.edu, <http://hurley.me.jhu.edu> (Updated November 10, 2024)

PROFESSIONAL PREPARATION

| | | |
|--|---------------------------|--------------------------|
| Lawrence Livermore National Laboratory | Computational Geosciences | Postdoc, 10/2015-11/2017 |
| California Institute of Technology | Applied Mechanics | Ph.D., 9/2015 |
| California Institute of Technology | Applied Mechanics | M.S., 6/2012 |
| University of Maryland, College Park | Civil Engineering | B.S., 6/2011 |

APPOINTMENTS

| | | |
|--|--|-----------------|
| Johns Hopkins University | | |
| <i>Primary Appointments</i> | | |
| Associate Professor, Mechanical Engineering | | 7/2023-Present |
| Assistant Professor, Mechanical Engineering | | 1/2018-6/2023 |
| <i>Other Appointments</i> | | |
| Secondary Appointment, Materials Science and Engineering | | 11/2024-Present |
| Deputy Director, Hopkins Extreme Materials Institute | | 7/2024-Present |
| Secondary Appointment, Civil & Systems Engineering | | 3/2020-Present |
| Faculty Fellow, Hopkins Extreme Materials Institute | | 1/2018-Present |
| Assistant Research Professor of Mechanical Engineering | | 10/2015-12/2017 |
| Postdoctoral Research Staff Member, Lawrence Livermore National Laboratory | | 11/2015-11/2017 |
| Graduate Research Assistant, California Institute of Technology | | 10/2011-9/2015 |

AWARDS AND HONORS

| | |
|--|-----------|
| Catalyst Award, Johns Hopkins University | 2023 |
| Air Force Office of Scientific Research (AFOSR) Young Investigator Program (YIP) Award | 2022 |
| 2021 Best Paper Award, Journal of American Ceramic Society, for two papers titled “Models for the behavior of boron carbide in extreme dynamic environments” and “Fragmentation and granular transition of ceramics for high rate loading”. Awarded at MS&T22. | 2022 |
| Army Educational Outreach Program (AEOP) Mentor of the Year Award | 2021 |
| U.S. National Science Foundation (NSF) CAREER Award, PMP Program, CBET Division | 2020 |
| Secretary’s Appreciation Award, U.S. DOE, for contributions to the Source Physics Experiment | 2017 |
| 1st Place, Young Stress Analyst Competition, ICEM16 Conference (Cambridge, UK) | 2014 |
| 1st Place, Computational Mechanics Poster Competition, EMI Conference (Evanston, IL) | 2013 |
| University of Maryland Presidential Scholarship | 2007-2011 |
| A. James Clark School of Engineering Scholarship | 2007-2011 |

STUDENT / MENTEE AWARDS AND HONORS

| | |
|--|------|
| Sohanjit Ghosh (Ph.D. student) – People’s Choice Award for Best Poster at the 2024 Materials Science in Extreme Environments Annual Technical Meeting | 2024 |
| Shachi Singh (Ph.D. student) – People’s Choice Award for Best Poster at the 2024 Mach Conference | 2024 |
| Brett Kuwik (Ph.D. student) – People’s Choice Award for Best Poster in 2023 Materials Science in Extreme Environments Annual Technical Meeting | 2023 |

| | |
|--|------|
| Adyota Gupta (Ph.D. student) – People’s Choice Award for Best Poster in 2023 Mach Conference | 2023 |
| Adyota Gupta (Ph.D. student) – Audience Vote for Best Poster in Interactions Matter Session of 2021 Society of Engineering Science Conference | 2021 |
| Brett Kuwik (Ph.D. student) – Judge’s Vote for Best Poster in Interactions Matter Session of 2021 Society of Engineering Science Conference | 2021 |
| Max Garcia (Undergraduate Student) – Judge’s Vote for Best Poster (2nd Author) in Interactions Matter Session of 2021 Society of Engineering Science Conference | 2021 |

JOURNAL PUBLICATIONS

Hurley Postdoc or Research Scientist advisee at Johns Hopkins University

Hurley current Ph.D. or M.S. advisee at Johns Hopkins University

Hurley current Undergraduate or High School advisee at Johns Hopkins University

***Hurley as PI and corresponding author at Johns Hopkins University**

§Hurley as PI and corresponding author at Lawrence Livermore National Lab

†Hurley’s advisee or co-advisee at Johns Hopkins University

OTHER CONFERENCE PROCEEDINGS

- **R.C. Hurley**, & Andrade, J.E. (2015). A smoothed particle hydrodynamics method for coupled gas-porous media flows. *Engineering Mechanics Institute (EMI) Computational Inelasticity Paper Competition*, Stanford, CA, June 2015.

CURRENT SUPPORT AT JOHNS HOPKINS UNIVERSITY

Hurley's share of current and completed support at JHU as PI: \$4,557,950

- U.S. National Science Foundation (NSF), DMR. “Collaborative Research: DMREF: Iterative Design and Fabrication of Multiscale Hyperuniform Materials for Targeted Mechanical and Transport Properties”. Role: PI for JHU. Lead PI/Institution: K. Daniels / NCSU. Other PIs/Institutions: C. Rock / NCSU; K. Newhall / UNC; M Porter / UCLA. Hurley funding during period of performance: **\$323,000**. Total funding to all PIs and institutions: \$2,000,000. Period of Performance: 12/1/2023 - 11/30/2027.
- Johns Hopkins University, Office of the President, Catalyst Award. “Assessing Fundamental Postulates of Plasticity Theories for Geomaterials”. Role: Sole PI. Funding during period of performance: **\$75,000**. Period of Performance: 7/1/2023 - 6/30/2025.
- U.S. Department of Energy (DOE). “Integrated X-ray Probes for In-Situ Deformation and Fracture Studies of Sandstone”. Role: Sole PI. Funding during period of performance: **\$496,977**. Period of Performance: 7/15/2022 - 7/14/2025.
- U.S. Air Force Office of Scientific Research (AFOSR). “YIP: Effects of Material and Morphology on 3D Particle and Pore Dynamics During Rapid Compaction of Granular Materials”. Role: Sole PI. Funding during period of performance: **\$450,000**. Period of Performance: 3/1/2022 - 2/28/2025.
- U.S. Defense Threat Reduction Agency (DTRA). “Constitutive Models for Soils, Rocks, and Concrete”. (part of “Materials Science in Extreme Environments University Research Alliance” (MSEE URA)). Role: PI, Leader of Focus Area (4 PIs total). Hurley's share of funding during period of performance: **\$846,716**. Total funding to app PIs and institutions: \$35,000,000. Period of Performance: 7/1/2020 - 12/31/2025.
 - PI of Supplements for 2023 Impact Research Workshop (**\$82,070**, not reflected in main share above) and impact experiments at JHU (**\$132,930**, not reflected in main share above).
 - Congressionally-funded supplement for enhancing research efforts (**\$224,029**, not reflected in main share above).
 - PI of FY2024 Spring Project Supplement on “Characterization of Mechanical Properties and Dynamic Deformation Mechanisms in Concrete Across Various Strength Regimes” (**\$420,000**, not reflected in main share above).
- U.S. National Science Foundation (NSF), CBET. “CAREER: Quantifying Local Rearrangements and Their Effects in 3D Granular Materials”. Role: Sole PI. Funding during period of performance: **\$535,414**. Period of Performance: 5/1/2020 - 4/30/2025.
 - U.S. National Science Foundation (NSF). “REU Supplement for NSF Award#1942096”. Role: Sole PI. Funding during period of performance: **\$6,825**. Period of Performance: 6/1/2023 - 5/31/2023.

Beginning of completed Support

- U.S. National Science Foundation (NSF), CMMI. “Concrete Micromechanics Validated with In-Situ Stress and Strain Measurements”. Role: Sole PI. Funding during period of performance: **\$351,556**. Period of Performance: 9/1/2021 - 8/31/2024.
 - U.S. National Science Foundation (NSF). “REU Supplement for NSF Award#2125023”. Role: Sole PI. Funding during period of performance: **\$7,800**. Period of Performance: 6/1/2023 - 5/31/2023.
- United States Geological Survey (USGS). “Force Chain Buckling as a Granular Fault Gouge Stick-Slip and Seismicity Mechanism”. Role: Sole PI. Funding during period of performance: **\$95,593**. Period of Performance: 4/15/2023 - 4/14/2023.
- Defense University Research Instrumentation Program (DURIP), Army Research Office (ARO). “An Extreme Pressure Triaxial Compression Apparatus for In-Situ Studies of Geomaterial Deformation Mechanisms”. Role: Sole PI. Funding during period of performance: **\$116,464**. Period of Performance: 1/1/2023 - 12/31/2023.

- U.S. Army Research Laboratory (ARL). “Calibrating and Validating Granular Flow Model Parameters to Aid in Integrative Modeling” (part of Materials in Extreme Dynamic Environments (MEDE) Collaborative Research Alliance). Role: PI within Ceramics Group. Hurley’s share of funding during period of performance: **\$134,651**. Period of Performance: 6/1/2019 - 12/31/2021.
- Space@Hopkins, Johns Hopkins University. “Electrostatically-Charged Contact Mechanics in Lunar and Martian Dust Environments”. A seed grant. Role: PI (w/ Rui Ni, JHU). Share of Funding: **\$18,866**. Period of Performance: 9/1/2020 - 8/31/2021.
- Defense University Research Instrumentation Program (DURIP), Army Research Office (ARO). “A System for In-Situ Studies of the Contact Mechanics Between Geomaterials”. Role: Sole PI. Funding: **\$151,845**. Period of Performance: 4/4/2019 - 4/3/2020.
- Army Research Office (ARO). “Workshop on Identifying Mathematical Challenges Associated with Dynamic Failure of Brittle Materials”. Role: Sole PI. Share of Funding: **\$18,768**. Period of Performance: 1/25/2019 - 9/24/2019.
- Subcontract from Lawrence Livermore National Laboratory to Johns Hopkins University, “Unraveling Force Chains and Failure in Granular Materials”. Role: Sole PI. Funding: **\$69,556**. Period of Performance: 1/25/2018 - 9/31/2018.

PENDING SUPPORT AT JOHNS HOPKINS UNIVERSITY _____

Hurley’s share of pending support at JHU as PI: \$3,323,866

- Army Research Office (ARO). “Mechanism-Based Geomechanics at Extreme Pressures: Experiments with In-Situ Measurements and Size- and Shape-Enriched Constitutive Modeling”. Role: Lead PI. Co-PI Yida Zhang, CU Boulder). Hurley funding during period of performance: **\$499,844** (Total: \$848,150). Anticipated of Performance: 3/1/2024 - 2/28/2027 (Estimated).
- Army Research Office (ARO). “A Gantry-Based X-ray Computed Tomography System for 3D Dynamic Imaging”. Role: Lead PI. Co-PI Todd Hufnagel, JHU. Funding: **\$1,392,873**. Anticipated of Performance: 12/1/2024 - 11/30/2025 (Estimated).
- National Science Foundation (NSF). “FMSG: Bio: Just Add Water and Cyanobacteria: Biomanufacturing Routes to Cement and Stabilized Soil”. Role: Co-PI. Other Co-PIs: Michael Betenbaugh and Yayuan Liu, JHU. Hurley’s share of funding during period of performance: **\$166,000**. Anticipated of Performance: 11/1/2024 - 10/30/2026 (Estimated).
- National Nuclear Security Administration (NNSA), Department of Energy (DOE). “Heterogenous Materials in Extreme Dynamic Environments: Mechanics and Kinetics Through Coupling Experiments with *In-situ* Measurements and Mesoscale Models”. Role: PI. Hurley’s share of funding during period of performance: **\$651,313**. Anticipated of Performance: 3/1/2025 - 2/28/2028 (Estimated)
- National Science Foundation (NSF). “Examining the Micromechanics of Pressure Solution Creep with In-Situ X-ray Probes”. Role: PI. Hurley’s share of funding during period of performance: **\$498,970**. Anticipated of Performance: 3/1/2025 - 2/28/2028 (Estimated)
- Small Business Innovation Research (SBIR) Phase 1 with Karagozian & Case, Inc.. “Understanding Fragment Impact on Responding Surfaces”. Role: PI. Hurley’s share of funding during period of performance: **\$14,866**. Anticipated of Performance: 1/1/2025 - 7/31/2025 (Estimated)
- Sony Research Award Program. “Reconstructing 3D Dynamics from 2D X-ray Projections”. Role: PI. Hurley’s share of funding during period of performance: **\$100,000**. Anticipated of Performance: 7/1/2025 - 6/30/2026 (Estimated)

COMPLETED SUPPORT AT LAWRENCE LIVERMORE NATIONAL LABORATORY _____

- Laboratory Directed Research and Development (LDRD) Grant, Lawrence Livermore National Laboratory, “Unraveling Force Chains and Failure in Granular Materials”. Role: Sole PI. Funding: **\$550,000**. Period of Performance: 10/1/2016 - 9/31/2018 (departed LLNL on 11/8/2017).

INVITED SEMINARS (CONFERENCE KEYNOTES, UNIVERSITY AND LABORATORY _____

SEMINARS, DOCTORAL SCHOOLS)

21. **R.C. Hurley** (September 2024). Quantifying Geomaterial Micromechanics with In-Situ X-ray Probes. *Department of Materials Science Seminar Series, Johns Hopkins University*, Baltimore, MD. **(Invited University Seminar)**.
20. **R.C. Hurley** (September 2024). Granular Mechanics Across Time and Length Scales: Insights from Quasi-Static and Dynamic Testing with In-Situ X-ray Measurements. *IS-Grenoble 2024*, Grenoble, France. **(Invited Conference Plenary)**.
19. **R.C. Hurley** (August 2024). A Grain's View of Triaxial Tests in Sands and Rocks. *Xi'an Jiaotong University*, Xi'an, China. **(Invited University Seminar)**.
18. **R.C. Hurley** (July 2024). A Grain's View of Triaxial Tests in Sands and Rocks. *Engineering Mechanics and Energy, University of Tsukuba*, Tsukuba, Japan. **(Invited University Seminar)**.
17. **R.C. Hurley** (February 2024). A Grain's View of Triaxial Tests in Sands and Rocks. *Granular Forum, School of Civil Engineering, University of Sydney*, Sydney, Australia. **(Invited University Seminar)**.
16. **R.C. Hurley** (October 2023). Granular Mechanics Across Time and Length Scales: Insights from In-Situ X-ray Measurements. *Institute for Geophysics and Planetary Physics (IGPP) Seminar, Department of Earth and Planetary Sciences, University of California, Santa Cruz*, Santa Cruz, CA. **(Invited university seminar)**.
15. **R.C. Hurley** (May 2023). Mechanics of Granular Materials Across Time and Length Scales: Insights from Quasi-Static and Dynamic Testing with In-Situ X-ray Measurements. *Center for Science and Protection of Engineered Environments (SPREE) Seminar Series, Department of Civil and Environmental Engineering, Northwestern University*, Northwestern University, Evanston, Ill. **(Invited university seminar)**.
14. **R.C. Hurley** (February 2023). Using X-rays to Study the Micromechanics of Granular Materials Across Time and Length Scales. *Rocky Mountain Mechanics Seminar Series, CU Boulder*, Colorado. **(Invited university seminar)**.
13. **R.C. Hurley** (September 2022). Measuring Stresses and Forces in 3D Granular Materials with X-rays. *A two-hour lecture given as part of the 2022 ALERT Geomaterials Doctoral School*, Grenoble, France. **(Invited doctoral school seminar)**.
12. **R.C. Hurley** (September 2022). Measuring Stresses and Forces in Granular Materials with Photoelasticity. *A two-hour lecture given as part of the 2022 ALERT Geomaterials Doctoral School*, Grenoble, France. **(Invited doctoral school seminar)**.
11. **R.C. Hurley** (December 2021). Quantifying the Micromechanics of Sand and Concrete With X-rays. *Department Seminar Series, Department of Mechanical and Industrial Engineering, New Jersey Institute of Technology*, Virtual. **(Invited university seminar)**.
10. **R.C. Hurley** (April 2021). Quantifying the Causes of Local Rearrangements in 3D Granular Media Using Machine Learning. *Laboratoire 3SR (Soils, Solids, Structures), University of Grenoble, 3SR Seminar Series*, Grenoble, France, Virtual. **(Invited university seminar)**.
9. **R.C. Hurley** (April 2021). Experimental Micromechanics of 3D Granular Materials with Applications to Force Chains, Waves, Rearrangements, Length Scales. *Center for Science and Protection of Engineered Environments (SPREE) Seminar Series, Department of Civil and Environmental Engineering, Northwestern University*, Virtual. **(Invited university seminar)**.
8. **R.C. Hurley** (September 2020). Experimental Micromechanics of 3D Granular Materials: Force Chains, Waves, and Rearrangements. *University of California, Santa Cruz, CA*, Virtual. **(Invited university seminar)**.
7. **R.C. Hurley** (August 2020). Experimental Micromechanics of 3D Granular Materials: Force Chains, Waves, and Rearrangements. *Sandia National Laboratory, Albuquerque, NM*, Virtual. **(Invited laboratory seminar)**.
6. **R.C. Hurley** (April 2020). Mechanics of Granular Materials at "Micro" Length and Time Scales from In-Situ X-ray Measurements *Mechanical Engineering Department Seminar Series, Johns Hopkins University*, Baltimore, Maryland, Virtual. **(Invited university seminar)**.

5. **R.C. Hurley** (January 2020). Quantifying Micro-scale Mechanisms of Geomaterial Behavior Using X-rays. *Laboratoire 3SR (Soils, Solids, Structures), University of Grenoble, 3SR Seminar Series*, Grenoble, France. **(Invited university seminar)**.
4. **R.C. Hurley** (July 2019). Measuring Contact- and Particle-Scale Behavior in 3D Granular Materials with X-rays and Waves. *Granular Forum, University of Sydney*, Sydney, Australia. **(Invited university seminar)**.
3. **R.C. Hurley** (May 2019). Measuring Contact- and Particle-Scale Behavior in 3D Granular Materials with X-rays and Waves. *Complex Matter and Biophysics Seminar Series, North Carolina State University*, Raleigh NC. **(Invited university seminar)**.
2. **R.C. Hurley** (November 2018). X-ray Tomography and Diffraction for Granular Micromechanics. *Hong Kong University Civil Engineering Department Seminar*, Hong Kong, China. **(Invited university seminar)**.
1. **R.C. Hurley** (October 2018). Combining *In-situ* X-ray Imaging and Diffraction to Understand the Micromechanics and Failure Processes of Granular Materials. *Brown Bag Seminar Series, Indian Head NSWC*, Indian Head, MD. **(Invited laboratory seminar)**.

INVITED TALKS (WORKSHOPS, CONFERENCES, SYMPOSIA) _____

28. **R.C. Hurley** (September 2024). Fundamental Research on Sand, Sandstone, and Concrete Subjected to High Pressures and Impacts: Recent Developments at JHU in the MSEE URA. *Nuclear Weapons Effects Collaborative (NVEC) Meeting*, Virtual.
27. **R.C. Hurley** (August 2024). 4D Grain Stress and Strain Measurements in Triaxially-Compressed Sand: Recent Results and Challenges. *2024 Society of Engineering Science Meeting*, Hangzhou, China. **(Invited symposium talk)**.
26. **R.C. Hurley** (June 2024). Mechanics of Geomaterials in Extreme Conditions *2024 Hopkins Exploratory Engineering Program (HEEP)*, Baltimore, Maryland. **(Invited talk)** to 23 distinguished undergraduate visitors from India.
25. **R.C. Hurley** (May 2024). In-situ X-ray Tomography and High-Energy Diffraction Microscopy for Sands, Rocks, and Concrete: Examples and Challenges *2024 Advanced Photon Source (APS) Users' Meeting*, Lemont, Illinois. **(Invited symposium talk)**.
24. **R.C. Hurley** (May 2023). Ultrasound and Acoustic Wave Propagation Measurements in Rocks and Granular Media Made Concurrently with In-Situ Synchrotron X-ray Imaging. *2023 American Society of Acoustics (ASA) Meeting*, Chicago, Illinois. **(Invited symposium talk)**.
23. **R.C. Hurley** (March 2023). Advances in Micromechanics and Digital Twin Modeling of Concrete and Geologic Materials Aided by In-Situ Tomography and 3D X-ray Diffraction. *TMS 2023 Annual Meeting*, San Diego, CA. **(Invited symposium talk)**.
22. **R.C. Hurley** (October 2022). Linking Granular Micromechanics to Macroscopic Plasticity in Triaxial Tests and Other Geometries. *Society of Engineering Science (SES) Annual Meeting*, University of Texas, A&M. **(Invited symposium keynote)**.
21. **R.C. Hurley** (September 2022). In-Situ Multi-Modal X-ray Imaging for Structure and Stress Distributions in Mechanically-Loaded Granular Media. *Lorentz Workshop, "Image is Everything"*, Leiden, Netherlands. **(Invited workshop keynote)**.
20. **R.C. Hurley** (March 2022). Towards Quantitative Measurement and Use of Grain Stresses and Forces in Granular Materials. *Workshop titled: Mechanics of Granular Materials: What's Next?*, International Research Network GeoMech, Virtual. **(Invited workshop keynote)**.
19. **R.C. Hurley** (January 2022). Linking Mechanisms to Penetration Response of Sands and Rocks: Experiments, Models, and Uncertainty Quantification in the MSEE URA. *Nuclear Weapons Effects Collaborative (NVEC) Meeting*, Virtual. **(Invited talk at invite-only DTRA meeting)**.
18. **R.C. Hurley** (September 2021). Inferring 3D Granular Dynamics From In-Situ X-ray Radiography and XPCI: Recent Advances, Limitations, and Opportunities. *Workshop on Enabling 3D Mesoscale Imaging Under Dynamic Conditions*, Los Alamos National Laboratory, Virtual. **(Invited workshop keynote)**.

17. **R.C. Hurley** (March 2021). Quantifying Local Rearrangements in Granular Media Using X-ray Tomography, Diffraction, and Machine Learning. *APS March Meeting 2021*, Virtual. **(Invited conference talk)**.
16. **R.C. Hurley** (January 2021). Research on Geomaterial Constitutive Laws in the MSEE-URA and Related Challenges and Capabilities for Dynamic Material Behavior Studies. *Nuclear Weapons Effects Collaborative (NVEC) Meeting*, Virtual. **(Invited talk at invite-only DTRA meeting)**.
15. **R.C. Hurley** (June 2020). Simultaneous *In-Situ* Synchrotron Tomography and Diffraction to Study the Mechanical Behavior of Granular Materials *1st In-Situ Studies of Rock Deformation (ISRD) Workshop*, Cornell, NY, Virtual. **(Invited workshop presentation)**.
14. **R.C. Hurley** (March 2020). Mechanics of Deformation in 3D Granular Materials using X-ray Measurements. *APS March Meeting 2020*, Virtual. **(Invited conference talk)** [Cancelled due to COVID19].
13. **R.C. Hurley** (January 2020). Microstructural Characterization: Applications to Granular Cohesion. *International Fine Particle Research Institute (IFPRI) Workshop on Particle Technology: Mechanisms of Cohesion at the Single Particle Level and Their Influence on Bulk Properties*, Philadelphia, Pennsylvania. **(Invited talk at invite-only industry consortium (IFPRI) workshop)**.
12. **R.C. Hurley** (October 2019). Multi-Scale Relationships from Grain-Resolved In-Situ Measurements in 3D Granular Materials. *Society of Engineering Science (SES) Annual Meeting*, St. Louis, Missouri. **(Invited symposium keynote)**.
11. **R.C. Hurley** (July 2019). In-situ X-ray Tomography and Diffraction: Probing Granular Micromechanics and Energy Dissipation During Compaction. *International Conference on Tomography of Materials & Structures (ICTMS)*, Cairns, Australia. **(Invited symposium keynote)**.
10. **R.C. Hurley** (May 2019). Measuring Contact- and Particle-Scale Behavior in 3D Granular Materials. *Frontiers in Applied and Computational Mathematics, Northeastern Complex Fluids & Soft Matter Workshop*, New Jersey Institute of Technology, Newark NJ. **(Invited workshop talk)**.
9. **R.C. Hurley** (December 2018). Combining *In-situ* X-ray Imaging and Diffraction to Understand the Micromechanics and Failure Processes of Granular Materials. *Multi-scale Materials Under the Nanoscope, Annual Workshop of GDRI M2UN*, Georgetown University, Washington DC. **(Invited workshop talk)**.
8. **R.C. Hurley** (June 2018). Grain-resolved structure, stress, and force measurements in friction 3D granular materials. *Granular Matter Gordon Research Conference*, Easton, MA. **(Invited workshop talk)**.

Above This Line: Research Substantially or Fully Executed at Johns Hopkins University

7. **R.C. Hurley**, (December 2017). Studies of micromechanics and failure in granular materials using X-ray computed tomography and diffraction. *GM3: Geo-Mechanics: From Micro to Macro, UK Annual Traveling Workshop*, London, England. **(Invited conference keynote (only keynote talk at conference))**.
6. **R.C. Hurley** (June 2017). Understanding mechanics and stress transmission in granular solids by combining 3DXRD and XRCT. *CHESS User's Meeting*, Ithaca, NY. **(Invited workshop keynote)**.
5. **R.C. Hurley** (May 2016). Inter-particle force inference in opaque granular materials imaged using XRCT and 3DXRD. *SIAM Conference on Mathematical Aspects of Materials Science*, Philadelphia, PA. **(Invited conference talk in invite-only session)**.
4. **R.C. Hurley**. A Smoothed Particle Hydrodynamics Method for Coupled Gas-Porous Media Flows. *Engineering Mechanics Institute Annual Meeting*, Palo Alto, CA. **(Invited Talk in Student Paper Competition in Computational Inelasticity, 2nd Place Finish)**.
3. **R.C. Hurley** (September 2014). Inferring inter-particle forces in opaque granular materials. *British Society for Strain Measurement Workshop*, Teddington, UK. **(Invited poster)**.
2. **R.C. Hurley** (July 2014). Measuring dynamic inter-particle force transmission in opaque granular media. *International Conference on Experimental Mechanics*, Cambridge, UK. **(Invited talk, First Place in Young Stress Analyst Competition)**.

1. **R.C. Hurley** (June 2014). The microscopic origin of friction in granular matter. *U.S. National Congress on Theoretical and Applied Mechanics (USNCTAM)*, East Lansing, MI. (**Invited session keynote**).

INVITE-ONLY WORKSHOP PARTICIPATION (TALKS OR OTHER ROLES) _____

Participation at invited speaker level or invited participant (for workshops not involving talks).

13. *Nuclear Weapons Effects Collaborative Meeting, Defense Threat Reduction Agency (DTRA)*, September 2024 (virtual).
12. *2024 Hopkins Exploratory Engineering Program (HEEP) Seminar Series*, Johns Hopkins University, Baltimore, Maryland, June 2024.
11. *Getting Into Shape: Pushing for Exotic Particulate Media Mechanics, Lorentz Workshop*, Leiden, Netherlands, June 2023.
10. *ALERT Geomaterials Doctoral School*, Aussois, France, September 2022.
9. *Image is Everything, Lorentz Workshop*, Leiden, Netherlands, September 2022.
8. *Mechanics of Granular Media: What's Next?, International Research Network GeoMech and Northwestern University*, March 2022 (virtual).
7. *Process-Structure-Performance: X-ray Experiments to Understand Materials Behavior, Los Alamos National Laboratory (LANL)*, February 2022 (virtual).
6. *Nuclear Weapons Effects Collaborative Meeting, Defense Threat Reduction Agency (DTRA)*, January 2022 (virtual).
5. *Enabling 3D Mesoscale Imaging Under Dynamic Conditions, Los Alamos National Laboratory (LANL)*, September 2021 (virtual).
4. *Nuclear Weapons Effects Collaborative Meeting, Defense Threat Reduction Agency (DTRA)*, January 2021 (virtual).
3. *1st In-Situ Studies of Rock Deformation (ISRD) Workshop*, Cornell University, June 2020 (virtual).
2. *Workshop on Particle Technology: Mechanisms of Cohesion at the Single Particle Level and Their Influence on Bulk Properties, International Fine Particle Research Institute (IFPRI)*, Philadelphia, January 2020.
1. *Multi-scale Materials Under the Nanoscope, GDRI M2UN*, Georgetown University, December 2018.

CONTRIBUTED PRESENTATIONS BY HURLEY AND MENTEES _____

*Hurley as PI or Co-PI while at Johns Hopkins University

Hurley group postdoc advisee at Johns Hopkins University

Hurley group Ph.D. advisee at Johns Hopkins University

Hurley group Undergraduate or High School advisee at Johns Hopkins University

(Underlined author is presenter)

- S. Ghosh, M. Thakur, R.C. Hurley* (August 2024). Effects of Material and Morphology on 3D Particle and Pore Dynamics During Rapid Compaction of Granular Materials. *2024 Triservice Review*, National Harbor, MD. (Oral and poster presentation).

TEACHING AT JOHNS HOPKINS UNIVERSITY

UG=Undergrad. G=Grad(Typical Year). Overall student review of quality: mean / median / total possible.

- Micromechanics of Heterogeneous and Granular Materials (G1+Elective. 9 students). Review: TBD. Fall 2024
- Mechanics of Solids & Materials I (G1-Core. 24 students). Review: 4.35/4.0/5.0. Fall 2023.
- Mechanics of Solids & Materials II (G1-Core. 13 students). Review: 4.75/5.0/5.0. Spring 2023.
- Mechanics of Solids & Structures: Theory and Applications II (EP Program). Spring 2023
- Modern Tools and Applications in Experimental Solid Mechanics (UG/G1-Elective). Review: 4.6/4.0/5.0. Fall 2022.
- Mechanics of Solids & Materials II (G1-Core. 13 students). Review: 4.64/5.0/5.0. Spring 2022.

- Mechanics of Solids & Structures: Theory and Applications II (EP Program). Spring 2022
- Mechanics of Solids & Materials I (G1-Core. 16 students). Review: 3.69/4.0/5.0. Fall 2021.
- Mechanics of Solids & Materials II (G1-Core. 11 students). Review: 4.40/4.5/5.0. Spring 2021
- Micromechanics of Heterogeneous and Granular Materials (G1+Elective. 9 students). Review: 4.50/4.5/5.0. Fall 2020
- Mechanics of Solids & Materials II (G1-Core. 9 students). Review: 4.56/5.0/5.0. Spring 2020
- Mechanics of Solids & Materials I (G1-Core. 16 students). Review: 4.40/5.0/5.0. Fall 2019.
- Mechanics of Solids & Materials II (G1-Core. 9 students). Review: 4.33/5.0/5.0. Spring 2019.
- Mechanics of Solids & Materials II (G1-Core. 16 students). Review: 3.81/4.0/5.0. Spring 2018.
- Mechanics of Solids & Materials Graduate Seminar (40+ students and postdocs, engaged in research presentations, group presentations, and external presentations). Fall 2019 - Spring 2023.
 - *Role involves working closely with student organizers to design group presentations, external presentations from faculty, and professional development workshops*

ADVISING (RESEARCH AND ACADEMIC) AT JOHNS HOPKINS UNIVERSITY _____

- Research and Scientific Staff Mentees:
 - Mohmad Mohsin Thakur, Assistant Research Scientist (2022 - present)
 - Michael Mengason, NIST-PREP Associate Research Scientist (2022 - 2023). Now a Research Geologist, NIST Infrastructure Materials Group.
- Postdoctoral Advisees:
 - Zhifei Deng (2024 - present)
 - Xiao Zhang (2022 - 2023) NIST-PREP Postdoc, NIST Mentor Dr. Aron Newman
 - Ye Tian (2022 - 2023), now Associate professor at Liaoning Academy of Materials
 - Mohmad Mohsin Thakur (2021 - 2022), transitioned to Assistant Research Scientist
 - Ghassan Shahin (2020 - 2022), transitioned to Marie Curie Postdoctoral Fellow, EPFL
 - Chongpu Zhai (2018 - 2021), transitioned to Associate Professor, Xi'an Jiaotong University
 - Mehmet Cil (2017 - 2019), transitioned to at Cibor Geoconsultants (co-advisor L. Graham-Brady)
- Ph.D. Student Advisees (**Bold**=Graduated):
 - Shachi Singh, Ph.D. Student (2023 - present)
 - Subham Bose, Ph.D. Student (2023 - present)
 - Sohanjit Ghosh, Ph.D. Student (2021 - present)
 - Kwangmin Lee, Ph.D. Student (2020 - present)
 - **Brett Kuwik**, Ph.D. Student (August, 2019 - January 22, 2024, now Postdoc at JHU)
 - * Thesis: *Particle Friction, Breakage, and Damage: Deformation Mechanisms of Brittle Granular Materials*
 - **Adyota Gupta**, Ph.D. Student (2018 - March 19, 2024, now at Exponent, Menlo Park) (K.T. Ramesh as co-advisor (Hurley primary))
 - * Thesis: *Advances in Measurement Techniques and Micromechanical Modeling for Granular Media*
 - * Intern at Eglin Air Force Base through AFRL Scholar Program, summer 2022.
- M.S. Student Advisees:
 - Siddhartha Pattisapu, M.S. Student (2022 - 2024, now at Tesla)
 - Surya Kolluri, M.S. Student (2020 - 2022, now Ph.D. student in Solid Mechanics at Brown University)
 - * Master's Essay: *Local rearrangement and micromechanical similarities between shear bands and simple shear in granular materials.*
 - Ziheng Wang, M.S. Student (2020 - 2021, now Ph.D. student at Purdue University)
 - Arthur Ding, M.S. Student (2018 - 2020, now at JHU Applied Physics Laboratory)
- D. Eng. Students Committee Member:
 - Austin DiOrio, D.Eng. Student (2021 - 2024) (Primary Advisor Jaafar El-Awady)

- Undergraduate Researchers:
 - Cole Peters, Junior in Mechanical Engineering, JHU (Hosted through NSERC program, Summer 2024)
 - Amelia Chiu, Freshman in Civil and Architectural Engineering, Stanford (Hosted through NSERC program, Summer 2024)
 - Trevor Sumlin, Junior in Geological Sciences, UNC (Hosted through NSERC program, Summer 2023)
 - Luke Moon, JHU ME (Summer 2023. Transitioned to Master's Program, JHU)
 - Jabiri Lawrence, JHU ME (Summer 2023. Transitioned to Ph.D. Program, Princeton University.)
 - Sean Enright, JHU ME (Fall 2022.)
 - Maximilian Garcia, JHU ME, MSEE Intern (2021 - 2022)
 - Jacob Kim, JHU ME (2021 - Present, now on leave of absence for Korean military service)
 - Maxim Daud, JHU ME (2019 - 2022, Full-Time in Summer 2022, now in U.S. Marine Corp)
 - Samuel Budoff, Sophomore in Mechanical Engineering, West Point (Hosted through NSERC program, Summer 2022)
 - Aiden Looney, Sophomore in Operations Research, West Point (Hosted through NSERC program, Summer 2022)
 - Dan Zanko, JHU ME (Spring 2018)
- High School Researchers:
 - Johan Zacharia, Loyola Blakefield High School (Army Educational Outreach Program (AEOP) Research & Engineering Apprenticeship (REAP) Program, Summer 2024).
 - Joanne Li, Thomas S. Wootton High School (Army Educational Outreach Program (AEOP) Research & Engineering Apprenticeship (REAP) Program, Summer 2023).
 - Phoebe Dainer, Walt Whitman High School (Army Educational Outreach Program (AEOP) Research & Engineering Apprenticeship (REAP) Program, Summer 2022).
 - Nahuel Albayrak, Chesapeake Science Point High School (Army Educational Outreach Program (AEOP) Research & Engineering Apprenticeship (REAP) Program, Summers 2020 and 2021. Transitioned to UGrad in Applied Mathematics at Johns Hopkins University.)
- Undergraduate Academic Advising
 - Faculty Advisor to 20 ME Undergraduates in Class of 2025.

EDUCATIONAL SERVICE AT JOHNS HOPKINS UNIVERSITY ---

- Department Qualifying Examination (DQE):
 - Organizer for Mechanics and Materials Qualifying Exam, 2019-2024.
- Graduate Board Oral (GBO) Examination Committee or Thesis Proposal Committee:
 - 2018: (1x) Civil Engineering, (2x) Mechanical Engineering.
 - 2019: (1x) Physics.
 - 2020: (2x) Civil Engineering.
 - 2022: (5x) Mechanical Engineering
 - 2024: (1x) Earth and Planetary Sciences, (1x) Mechanical Engineering, (2x) Physics and Astronomy
- Defense Committee Member (+Hurley as Thesis Reader/Signer for Library, ⁰Hurley as Chair).
 - 2018: (1x)
 - * Thomas C. O'Connor (Physics, Advisor Mark Robbins)
 - 2019: (1x)
 - * Joel T. Clemmer (Physics, Advisor Mark Robbins)
 - 2020: (2x)
 - * ⁺Joseph Monti (Physics, Advisor Mark Robbins)
 - * ⁺Alex (Xiangyu) Sun (Mechanical Engineering, Advisor KT Ramesh)
 - 2021: (4x)

- * +Amartya Bhattacharjee (Civil and Systems Engineering, Advisor Lori Graham-Brady)
- * +Jason Parker (Mechanical Engineering, Advisor KT Ramesh)
- * +Yuan Tian (Materials Science & Engineering, Advisor Mingwei Chen)
- * Derek Brehm (Physics, Advisor Petar Maksimovic)
- 2022: (1x)
 - * ⁰Xia Yan (Civil Engineering, Advisor Thomas Gernay)
- 2023: (4x)
 - * Shengzhi Luan (Civil Engineering, Advisor Stavros Gaitanaros)
 - * ⁰Alberto Torres (Civil Engineering, Advisor James Guest)
 - * ⁰Justin Unger (Civil Engineering, Advisor James Guest)
 - * ⁰⁺Gary Simpson (Mechanical Engineering, Advisor KT Ramesh)
 - * Thirupathi Maloth (Civil Engineering, Advisor Somnath Ghosh)
- 2024: (4x)
 - * + Brett Kuwik (Mechanical Engineering, Advisor Ryan Hurley)
 - * + Adyota Gupta (Mechanical Engineering, Advisor Ryan Hurley)
 - * Michael Vladimirov (Civil Engineering, Advisor James Guest)
 - * + Mostafa Omar (Mechanical Engineering, Advisor Jaafar El-Awady)
- Co-advised (w/ Prof. Rui Ni) JHU’s SEDS (Students for Exploration and Development of Space) team in NASA’s 2021 Lunar Dust Challenge. Attended weekly meetings, provided technical feedback, provided use of laboratory facilities for prototyping. Fall 2020.
- Faculty review committee for Biomedical Engineering Senior Design Team designing “Osteocast”, a deformable and reusable cast for wrist fractures that uses vacuum-induced stiffening of granular media. Attended meetings and provided technical feedback. Fall 2018 – Fall 2019.

INSTITUTIONAL SERVICE AT JOHNS HOPKINS UNIVERSITY

- Appointed Deputy Director of the Hopkins Extreme Materials Institute (July 2024 - Present)
 - Main roles include continued development and chairing of the annual Mach Conference in Annapolis, MD, workforce development initiatives at all levels, and research infrastructure initiatives.
- Leadership in JHU’s \$30M five-year (2020-2025) *Materials Science in Extreme Environments University Research Alliance (MSEE-URA)*
 - Aided with a significant portion of the proposal effort for the \$30M five-year (2020-2025) *Materials Science in Extreme Environments University Research Alliance (MSEE-URA)* at Johns Hopkins University (funded by the Defense Threat Reduction Agency (DTRA)) by writing the portion of the proposal describing a four-PI effort on “Geomaterial Constitutive Laws” and writing the “Facilities and Other Resources” document for the 18-institute, 40-PI proposal.
 - Lead biweekly meetings of 4 PIs and 12 graduate-student, postdoctoral, and research scientist participants in technical discussions related to “Geomaterial Constitutive Laws”. I also meet on a regular basis with DTRA and other Department of Defense (DOD) employees or contractors for technical or work-force development discussions.
- Leadership in developing a vision for a core Mechanical Testing Laboratory (MTL)
 - Fall 2023 - April 2024: leading development of a vision document and preliminary business plan for a core Whiting School of Engineering (WSE) Mechanical Testing Laboratory, a shared research facility providing mechanical testing capabilities for the entire JHU community and its collaborators.
 - April 2024 - Present: Engaging WSE leadership to identify resources to support the MTL.
- Contributed video and audio with Ph.D. students, postdocs, and research engineers in the Hopkins Extreme Materials Institute for *Hopkins on the Hill 2021*, a biennial showcase of the range, value, and impact of federally funded research and programming at Johns Hopkins University.
- PI of major shared facilities:
 - MicroCT Facility containing an RX Solutions EasyTom 160 and Deben Load Stages.

- Impact Facility including an Instron CAEST 9350 Droptower Impact System.
- Particle Characterization Facility including a Morphologi4 ID.
- Faculty Search Committees:
 - Hopkins Extreme Materials Institute, 2023.
 - Mechanical Engineering Department, 2021-2022.
 - Mechanical Engineering Department, 2018.
 - Hopkins Extreme Materials Institute, 2018.
- Committees / Reviews:
 - Reviewer for JHU Nexus Awards, 2024.
 - Reviewer for Robbins Ph.D. and Future Faculty awards, July 2022.
 - Reviewer for eight SURPASS white papers by WSE/APL research teams, June 2022.
 - Member, Mechanical Graduate Recruiting and Admissions Committee, 2022-Present.
 - Member, Mechanical Engineering Department Seminar Committee, 2019-Present.
 - Member, Steering Committee, Hypervelocity Facility for Impact Research (HyFIRE), 2019-Present.
 - Selection and Purchasing Committee, Hopkins Extreme Materials Institute’s Micro-Computed Tomography Machine, 2018.

EDUCATIONAL SERVICE OUTSIDE OF JOHNS HOPKINS UNIVERSITY _____

- Organizer and Instructor for ALERT Geomaterials’ immersive Doctoral School in Aussois, France, September 2022 (co-organizers and co-instructors Benjy Marks, Edward Andó, Joshua Dijkstra) .
 - Developed and presented four hours of interactive lectures and two hours of Q&A within broader 2.5-day / 20-hour program for over 100 doctoral students and postdocs to gain practical experience with techniques on the cutting edge of “Advanced Experimental Geomechanics”. Specific topics presented by Hurley include photoelasticity (setting up and using polariscopes to analyze granular mechanics) and multi-modal x-ray measurements (combining x-ray tomography and 3D x-ray diffraction to make structure, kinematics, and stress measurements in granular materials, concrete, and rocks).
- Thesis committee member: Sungyeon Hong, Australia National University, Canberra (advisor, Mohammad Saadatfar), December 2023.
- Thesis committee member: Manasa Bhat, Indian Institute of Science (IISc), Bangalore (advisor, Tejas Murthy), 2020-present.
- Thesis/defense examiner: Olga Stamati, Laboratoire 3SR, University Grenoble, Alpes, France (advisors, Y. Malecot, E. Roubin), May 2020. (with F. Hild, Y. Malecot, J.S. Baptist, E. Andó, E. Roubin.)
- Mentor of six Summer Undergraduate Research Fellows (SURFs) at Lawrence Livermore National Laboratory (2017) and California Institute of Technology (2013).

SERVICE TO THE PROFESSION _____

- **Conference and Workshop Chair or Organizer:**
 - Mach Conference (150-250 attendees), held annually in April in MD.
 - * Chair of conference, 2022, 2023, 2024, 2025
 - *Role includes design of technical program, communication to over 1,000 community members to solicit mini-symposium and plenary speaker proposals, weekly meetings with JHU staff to coordinate logistics and make financial decisions, vendor fundraising, and movement of the annual event back to an in-person format and to a new venue in 2023.*
 - * Co-chair of conference (w/ Lori Graham-Brady), 2020, 2021
 - *Chair and co-chair roles include scientific program development, plenary speaker invitations, moderating some plenary sessions, mini-symposium proposal review, confer-*

- ence introductions and announcements, developing a virtual conference environment in response to Covid-19
- HEMI/MSEE Impact Research Workshop and Short Course, 2023
 - * Lead organizer, 2023
 - *Role includes conceptualization of event in coordination with HEMI/MSEE faculty and staff and DTRA program managers, identifying and inviting speakers, curation of the technical program and schedule, and moderation of entire event. Workshop involved three academic and DOD lab keynote presentations (1 hour each), three academic and DOD lab instructors (4 hours each), two DOD scientist presentations (1 hour each), tours of JHU’s HyFIRE facility, and two student/postdoc poster sessions. Short Course involved 1.5 days of hands-on learning (gas gun impact experiment setup and execution, high-speed imaging, photon doppler velocimetry, flash X-ray) at JHU’s HyFIRE facility led by two HEMI Staff Engineers.*
 - Engineering Mechanics Institute (EMI) Annual Conference, 2022
 - * Local organizing committee, 2022. Conference held May 2022 at Johns Hopkins University
 - *Role included outreach to mini-symposium organizers, organization and approval of a subset of abstracts, judging of student video competition in 2022*
 - Workshop on “In-situ x-ray tools for structural materials”, Cornell High Energy Synchrotron Source (CHESS), Ithaca, NY, July, 2021
 - * Co-organizer and moderator (w/ K. Shanks, M. Miller, D. Pagan, M. Hassani, N. Bouklas)
 - *Role included identifying speakers, soliciting talks, organizing scientific program, moderating talks and discussions through one half-day of the two-day workshop*
 - Army Research Office (ARO) funded workshop on “Mathematical Challenges Associated with Failure of Brittle Solids”, Johns Hopkins University, Baltimore, MD, May 2019
 - * Chair and PI (Co-I’s J. Hogan, S. Kalidindi) of proposal for workshop funding.
 - *Role included identifying speakers, developing scientific program and discussions, invitations, moderation, and writing a final report and journal paper*
 - **Conference and Workshop Plenary or Symposium Organizer:**
 - Society of Engineering Science (SES) Annual Conference, Mini-Symposium Organizer
 - * “Mechanics of Granular Media: Experiments, Theory, Modeling”, October 2023 (University of Minnesota)
 - *Role involves soliciting and reviewing abstracts, arranging schedule of talks, moderating subset of sessions*
 - Engineering Mechanics Institute (EMI) Annual Conference, Mini-Symposium Organizer
 - * “Mechanics and Physics of Granular Materials”, May 2020 (Columbia University), 2021 (Virtual), 2022 (Johns Hopkins University), 2023 (Georgia Institute of Technology), 2024 (Chicago, Illinois), 2025 (Irvine, CA)
 - *Role involves soliciting and reviewing abstracts, arranging schedule of talks, moderating subset of sessions*
 - * “Mechanics of Rocks and Anisotropic Polycrystals”, June 2019 (Caltech)
 - *Role involves soliciting and reviewing abstracts, arranging schedule of talks, moderating subset of sessions*
 - Mach Conference, Annapolis, MD
 - * “Opportunities for Materials Science and Engineering at National User Facilities” Plenary Session, 2019 Mach Conference
 - *Role involves identifying and inviting two plenary speakers (J. Almer, G. Collins), introductions, moderating questions, and moderating 30-minute panel discussion after two plenary talks*
 - * “High-Pressure Material Properties” Plenary Session, 2018 Mach Conference
 - *Role involves identifying and inviting two plenary speakers (N. Thadhani, T. Duffy), introductions, moderating questions, and moderating 30-minute panel discussion after*

two plenary talks

- **Editorial service:**
 - Sole editor of the iMechanica Journal of the Month Club, February 2023 - January 2024.
 - Co-editor of Open Geomechanics, a diamond open-access journal launched in 2018 to foster the publication of open-access geomechanics research (<https://opengeomechanics.centre-mersenne.org>). Other co-editors: C. Viggiani, D.M. Wood, I. Herle, C. Tamagnini, E. Ando, J. Dijkstra, B Marks, D.J. Frost, C. Arson, E. Gerolymatou
- **Proposal reviewing in past 5 years:**
 - American Chemical Society Petroleum Research Fund (ACS-PRF) (1 proposal review since 2020).
 - U.S. Department of Energy (DOE) (3 proposal reviews since 2022).
 - U.S. National Science Foundation (NSF) (Two virtual panels since 2018, several ad hoc reviews).
 - U.S. Army Research Office (ARO) (3s proposal reviews since 2019).
 - U.S. National Aeronautics and Space Administration (NASA) (1 panel in 2019).
 - Hong Kong Research Grants Council (8 proposal reviews since 2017).
 - Czech National Science Foundation (1 proposal reviews since 2018).
 - Cornell High Energy Synchrotron Source (CHESS) beamtime proposals (>30 since June 2019).
- **Paper reviewing within past 5 years:**
 - *Proceedings of the National Academy of Sciences of the United States of America, Scientific Reports, Physical Review Letters, Journal of Applied Mechanics, Soft Matter, Granular Matter, Journal of Geophysical Research, Journal of Engineering Mechanics, Proceedings of the Royal Society of London A, Acta Geotechnica, Computer Methods in Applied Mechanics and Engineering, Computational Mechanics, International Journal for Numerical and Analytical Methods in Geomechanics, Review of Scientific Instruments, PLoS One, International Journal of Solids and Structures, Experimental Mechanics, Physica A., and several more.*

PROFESSIONAL MEMBERSHIPS AND COMMITTEES

- In-Situ Rock Deformation Steering Committee (IRSD), 2022-Present.
 - *Leading efforts to plan a 2025 Science Workshop, Fall 2024*
 - *Moderator of a portion of 3rd ISRD-RCN workshop on Neutron Scattering and Imaging, July 2023*
- American Society of Civil Engineers (ASCE), 2020-Present
 - International Society for Soil Mechanics and Geotechnical Engineering (ISSMGE), 2020-Present. Corresponding TC105 Committee Member from USA (Geo-Mechanics from Micro to Macro).
 - * *Joined 8-person core committee responsible for programming TC105 activities and planning the conference which is held once per four years, Fall 2024 - present.*
 - Engineering Mechanics Institute (EMI) Member, 2015-Present. Member of *Granular Materials* and *Computational Mechanics* technical committees. For Granular Materials Technical Committee (GMTC):
 - * *Solicited and reviewed abstracts for mini-symposia between 2020 - 2025.*
 - * *Served as a judge for the 2022, 2023, and 2024 student poster competitions.*
 - * *Served as meeting secretary for GMTC meetings at annual EMI Conference in 2023 and 2024.*
- Society of Experimental Mechanics (SEM), 2019-Present.
- Society of Engineering Science (SES), 2017-Present.
 - *Co-organized mini-symposium on experiments, theory, and modeling of granular materials, 2023 and 2024 conferences.*
- American Physical Society (APS) (Active in DSOFTE), 2016-Present.
 - *For DSOFTE: Served as judge for student poster competition, 2022 APS March Meeting*

PROFESSIONAL DEVELOPMENT COURSES

- *Foundations of Leadership and Management*, Carey Business School, Johns Hopkins University, January 2023 – 18-hour Executive Education course.
- *Leading Organizational Change*, Carey Business School, Johns Hopkins University, November 2022 – 18-hour Executive Education course.
- *Interpersonal Communication and Conflict Management*, Carey Business School, Johns Hopkins University, January 2023 – 18-hour Executive Education course.
- *Best Practices in University Teaching*, Johns Hopkins University, January 2022, a 13-hour course offered by the Johns Hopkins University Center for Teaching Excellence and Innovation covering: effective assessment strategies, evidence-based teaching strategies, inclusive pedagogy.
